

NON-INTRUSIVE FLOW MEASUREMENT

Ultrasonic Clamp-on Flow Meter Rentals

Rentals available from our Atlantic Controls location and ships within Atlantic Canada.

Common applications include:

- Flow testing
- Temporary flow measurement
- Meter verification
- Startup/shutdown flow verification
- Leak detection
- Line balancing

Reach out to Atlantic Controls for a conversation about your flow application. Our team of flow experts will help you discover the optimal solution for your flow measurement needs and can include the initial installation service along with training on its use.
